

THE PORTABLE WINDOW

A DEDICATED SOFT LIGHT SYSTEM

Why do we call it dedicated?

Similar to the other known seven dedolight soft lights, these have been conceived exclusively as optimal soft lights

- Light output is double in comparison to a soft box in front of a studio Fresnel light, because the actual light sources are placed in the focal point of the reflector
- Gentle wrap around character

On an optimum soft light source, the light emission on the large diffuser should be perfectly even to the edge. It should even be somewhat more intense towards the edge.

Both variations are offered by this soft light by changing the standard inner diffuser with a rim-aura diffuser (both types included).

- The standard inner diffuser provides perfectly smooth and equal light distribution

The inner Rim-Aura diffuser provides a brighter rim area (Aura) on the front diffuser and is closer to the idea of a "wrap around light"

Alternatively, use the large inner diffuser for all over even light

Panaura® 7 with 40° grid

Tungsten / Daylight

dedolight is probably the only one who offers the interchangeability of daylight discharge lamps with tungsten discharge lamps. Both have equally high light output, identical high color quality and both work with the same ballast.

DL400DHR-NB

Metal Halide Lamp 400/575 W Daylight

DL575THR-NB

Metal Halide Lamp 400/575 W Tungsten

intensity control in six steps with no change of color.

This two lamp system offers a wide range of intensity control. Each lamp is individually controlled and can be switched from 575 W to 400 W or continuously dimmed to 300 W and then switched off. This results in an unprecedented range of intensity control without any change to color quality. Unprecedented for any such system working with discharge light sources (metal halide – HMI)

Higher Output – More Light – Less Consumption – Less Heat

DLHPA7x2DT

Soft light head for 2 lamps, daylight or tungsten, interchangeable, same high light output. Both lamps work with the same ballasts.

How do you want to call it?
Energy Efficient? Green-Tec?
dedolight Panaura®?
The Portable Window?
... or just the soft light with the most loving character?

Even though we do not favor the hot spot philosophy, we still have 140 percent light level in the center compared to a 5000 W tungsten Fresnel with a soft box and we use only 1150 W

250 percent light level towards the rim compared to a 5000 W tungsten Fresnel with a soft box – and we still only use 1150 W.

Panaura® 7 compares favorably with a soft box on a 2.5 kW daylight studio light – more light and uses only 1150 W.

DLPA7*

- dedolight Panaura® 7 textile reflector with
- additional rear cowl and
 - 2 different inner diffusers (DLPA7D2 standard diffuser and DLPA7D2S rim aura diffuser)
 - as well as the DLPA7D1 large front diffuser.

DLPA7G

40° grid for all Panaura® 7 models

DEB400DT

Electronic flicker free ballast for 400/575 W daylight and tungsten discharge lamps.

DPOW400DT

Connection cable between light head and ballast

DEB400Hx2

Extending ballast holder for better balance

DLHPA7-EXT

Yoke extension
For use with Panaura® 7 in tilted position for extra distance between light stand and Panaura® 7.

DSCPA7W

Panaura® 7 soft case with wheels

* When using the Panaura® 7 with DLHPA7x2T and Panaura® 5 with DLH1000SPPLUS head with halogen lamps in a straight downward position (for extended period of time), please order "heat shield inserts".

For Panaura® 5 Set:

DLPA5-HTS4
with 4 heat shields

For Panaura® 7 Set:

DLPA7-HTS3
with 3 heat shields

DLPA5-HTS8
with 8 heat shields

DLPA7-HTS8
with 8 heat shields

SPA7x2DT

Interchangeable Tungsten/Daylight Panaura® 7 Kit

- robust transport soft case with wheels
- soft light head
- 2 x 400/575 W daylight lamps
- Panaura 7 soft box with rods and baffle
- incl. 2 types of inner diffusers
- incl. 1 front diffuser
- 2 ballasts and cables
- variable ballast holder

optional:

- yoke extension (DLHPA7-EXT)
- stand with 28 mm receptacle (DST1200)
- grid (40°) for Panaura® 7 (DLPA7G)
- 575W tungsten lamps (DL575THR-NB)

Pure Tungsten

Variations of Panaura® 7

When you don't need daylight and the flexibility to change between daylight and tungsten (interchangeable lamps), you may want a pure halogen tungsten soft light.

Tungsten Panaura® light head DLHPA7x2T works with two 1000 W halogen lamps.

All halogen lamps are individually switchable or can be dimmed individually with our new dimmers DLDIM2000.

DLHPA7x2T Tungsten 2 x 1000 W

Soft light head for 2 lamps 1000 W halogen with protective glass tubes

Pure Daylight

Variations of Panaura® 7

DLH1x1200SD Daylight 1 x 1200 W

Our newest Panaura 7 soft light works with a single 1200 W lamp (G22 socket). Integrated speed ring for Panaura® 7 soft box. It may be powered by the new DEB1200D ballast which offers manual dimming and DMX control as standard.

Size, Depth, Weight

The Panaura® family comes in 3 sizes, all offer superb soft light character without any hot spot, and the choice of different inner diffusers allows smooth and even light distribution or the typical Panaura® look with the brighter rim towards the outside - the true loving, caressing wrap-around light character.

When working in confined areas the depth of the light head can make the decisive difference whether this wonderful, creative tool can be used at all. The very shallow depth of this portable window system offers distinct advantages in space consumption.

Also much less weight, higher light efficiency, lower heat, lower power consumption (never blow a household fuse).

dedoflex MULTIDISC 5 IN 1

The MultiDisc 5 in 1 offers five reflector surfaces. Translucent, white, silver, gold, and soft gold in one easy to carry package. Switch surfaces in seconds.

- Translucent: Use to diffuse light. Produces a broad light source and soft effect.
- White: Use to reflect light with natural looking results.
- Silver: Use to increase specular highlights adding more contrast to your image.
- Gold: Use for a strong warming effect in your lighting
- Soft Gold: Use for natural looking, warmer reflected light. Soft Gold combines silver and gold in a zig-zag pattern for a warm, summery feel that works great with skin tones.

The heavy duty steel frame is guaranteed not to break for the life of the product. Reflector surfaces are smooth and flat for consistent, even reflections. The MultiDisc comes in its own protective, durable fabric case for storage and transport.

DF5IN1-56

Small 56 cm (22")

DF5IN1-81

Medium 81 cm (32")

DF5IN1-106

Large 106 cm (42")

DLTCH Compact Disc Holder

The new compact holder for dedoflex reflectors and diffusers as well as for dedoflex 5 in 1 MultiDiscs. The holder consists of two parts and can be expanded from 71 cm/28" to a maximum of 127 cm/50". A 16 mm stud is provided for mounting accessories or light heads.
