

THE PORTABLE WINDOW

A DEDICATED SOFT LIGHT SYSTEM

Why do we call it dedicated?

Similar to the other known seven dedolight soft lights, these have been conceived exclusively as optimal soft lights

- Light output is double in comparison to a soft box in front of a studio Fresnel light, because the actual light sources are placed in the focal point of the reflector
- Gentle wrap around character

On an optimum soft light source, the light emission on the large diffuser should be perfectly even to the edge. It should even be somewhat more intense towards the edge.

Both variations are offered by this soft light by changing the standard inner diffuser with a rim-aura diffuser (both types included).

- The standard inner diffuser provides perfectly smooth and equal light distribution

The inner Rim-Aura diffuser provides a brighter rim area (Aura) on the front diffuser and is closer to the idea of a "wrap around light"

Alternatively, use the large inner

Panaura® 7 with 40° grid

Tungsten / Daylight

dedolight is probably the only one who offers the interchangeability of daylight discharge lamps with tungsten discharge lamps. Both have equally high light output, identical high color quality and both work with the same ballast.

DL400DHR-NB

Metal Halide Lamp 400/575W Daylight

DL575THR-NB

Metal Halide Lamp 400/575W Tungsten

intensity control in six steps with no change of color.

This two lamp system offers a wide range of intensity control. Each lamp is individually controlled and can be switched from 575 W to 400 W or continuously dimmed to 300 W and then switched off. This results in an unprecedented range of intensity control without any change to color quality.

Higher Output – More Light – Less Consumption – Less Heat

DLHPA7x2DT

Soft light head for 2 lamps, daylight or tungsten, interchangeable, same high light output. Both lamps work with the same ballasts.

How do you want to call it?
Energy Efficient? Green-Tec?
dedolight Panaura®?
The Portable Window?
... or just the soft light with the most loving character?

Even though we do not favor the hot spot philosophy, we still have 140 percent light level in the center compared to a 5000W tungsten Fresnel with a soft box and use only 1150W.

250 percent light level towards the rim compared to a 5000W tungsten Fresnel with a soft box – and we still only use 1150W.

Panaura® compares favorably with a soft box on a 2.5 kW daylight studio light – more light and uses only 1150W.

DLHPA7-EXT

Yoke Extension

For use with Panaura® 7 in tilted position for extra distance between light stand and Panaura® 7.

DLPA7*

dedolight Panaura® 7 textile reflector with additional rear cowling and 2 different inner diffusers (DLPA7D2 standard diffuser and DLPA7D2S rim aura diffuser) as well as the DLPA7D1 large front diffuser.

DLPA7x4T*

dedolight Panaura® 7 special version – textile reflector with super high heat resistant material and additional air vents for use with DLHPA7x4T (4 x 1000 W).

* When using the Panaura® 7 with DLHPA7x2T and DLHPA7x4T heads and Panaura® 5 with DLH1000SPPLUS head with halogen lamps in a straight downward position (for extended period of time), please order "heat shield inserts".

For Panaura® 5:

DLPA5-HTS4

Set with 4 heat shields

For Panaura® 7:

DLPA7-HTS3

Set with 3 heat shields

DLPA5-HTS8

Set with 8 heat shields

DLPA7-HTS8

Set with 8 heat shields

DEB400DT

Electronic flicker free ballast for daylight and tungsten discharge lamps.

DPOW400DT

Connection cable between Light Head and Power Supply

DEB400Hx2

Extending ballast holder for better balance

DLPA7G

40° grid for all Panaura® 7 Models

DSCPA7W

Panaura® 7 soft case with wheels

SPA7x2DT

Tungsten/Daylight Panaura® Kit

- robust soft case with wheels
- soft light head
- 2 x 400/575 W daylight lamps
- soft box with rods and baffle
- 2 types of inner diffusers
- 1 front diffuser
- 40° grid
- 2 ballasts, cable

optional:

- yoke extension
- variable ballast holder
- stands
- 575 W tungsten lamps (available soon)

Pure Tungsten

Variations of Panaura® 7

When you don't need daylight and the flexibility to change between daylight and tungsten (interchangeable lamps), you may want a pure halogen tungsten soft light.

Tungsten Panaura® light head DLHPA7x2T works with two 1000 W halogen lamps.

The DLHPA7x4T works with four 1000 W lamps (type DL1000FEP-NB / FEL-NB). The 4K version (4 lamps) requires a special textile reflector which can withstand the extra heat and provides extra air vents (DLPA7x4T).

All halogen lamps are individually switchable or can be dimmed individually with our new dimmers.

DLHPA7x2T Tungsten 2 x 1000 W

Soft Light Head for 2 Lamps 1000 W Halogen with protective glass tubes

DLHPA7x4T Tungsten 4 x 1000 W

Soft Light Head for 4 Lamps up to 1000 W Tungsten each, with protective glass tubes

Size, Depth, Weight

The Panaura® family comes in 3 sizes, all offer superb soft light character without any hot spot, and the choice of different inner diffusers allows smooth and even light distribution or the typical Panaura® look with the brighter rim towards the outside - the true loving, caressing wrap-around light character.

When working in confined areas the depth of the light head can make the decisive difference whether this wonderful, creative tool can be used at all. The very shallow depth of this portable window system offers distinct advantages in space consumption.

Also much less weight, higher light efficiency, lower heat, lower power consumption (never blow a household fuse).

dedoflex MULTIDISC 5 IN 1

The MultiDisc 5 in 1 offers five reflector surfaces. Translucent, white, silver, gold, and soft gold in one easy to carry package. Switch surfaces in seconds.

- Translucent: Use to diffuse light. Produces a broad light source and soft effect.
- White: Use to reflect light with natural looking results.
- Silver: Use to increase specular highlights adding more contrast to your image.
- Gold: Use for a strong warming effect in your lighting
- Soft Gold: Use for natural looking, warmer reflected light. Soft Gold combines silver and gold in a zig-zag pattern for a warm, summery feel that works great with skin tones.

The heavy duty steel frame is guaranteed not to break for the life of the product. Reflector surfaces are smooth and flat for consistent, even reflections. The MultiDisc comes in its own protective, durable fabric case for storage and transport.

DF5IN1-56

Small 56 cm (22")

DF5IN1-81

Medium 81 cm (32")

DF5IN1-106

Large 106 cm (42")

DLTC Compact Disc Holder

The new compact holder for dedoflex reflectors and diffusers as well as for dedoflex 5 in 1 MultiDiscs. The holder consists of two parts and can be expanded from 71 cm/28" to a maximum of 127 cm/50". A 16 mm stud is provided for mounting accessories or light heads.
